UX and product designer with experience designing digital products in banking and fintech. After completing the Česká spořitelna trainee program, I progressed to a mid-level role, working on user-focused solutions within complex products and systems. I combine a background in Media & Business with a structured, detail-oriented approach to design. I enjoy collaborating across teams, taking ownership of challenges, and turning user and business needs into clear, practical experiences.

PROFESSIONAL
EXPERIENCE

UX Trainee Program at Česká Spořitelna, Prague, Czech Republic | September 2025 – November 2026

- Designed user-friendly digital experiences for banking products, from exploring user needs and shaping product solutions to creating interfaces and interactive prototypes. Collaborated with cross-functional teams and contributed to consistent, accessible product design.

Consultancy Internship at Orbital Eye, Rotterdam, Netherlands | February 2024 – May 2024

- Provided strategic insights and conducted research concerning the internal culture in a satellite imagery company

Music Production, Freelance/Remote | 2021 – Current

- Selling music online through YouTube and a beat-selling platform Beatstars, licensing instrumentals to artists
- Produced instrumentals for multiple artists from Slovakia and USA, securing placements on released albums

EDUCATION

Google UX Design Course | 2024 – 2025

A 5 month course teaching the foundations of UX Design

Erasmus University Rotterdam | 2023 – 2024

Master of Media Arts in Media & Business

Utrecht University | 2020 – 2023

Bachelor of Arts in Media & Culture
